LIST OF CONTENTS FOR VOLUME 19, 1992

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1992 Volume 19, Number 1 January-February

Contents

E. Choi, Y.I. Cho and H.G. Lorsch	1	Thermal analysis of the mixture of laboratory and commercial grades hexadecane and tetradecane
B. Weigand and H. Beer	17	Solidification of flowing liquid in an asymmetric cooled parallel-plate channel
N. Brauner and D.M. Maron	29	Identification of the range of "small diameters" conduits, regarding two-phase flow pattern transitions
N.T. Obot, E.B. Esen, K.H. Snell and T.J. Rabas	41	Pressure drop and heat transfer characteristics for air flow through spirally fluted tubes
N.T. Obot and T.A. Trabold	51	On the rate balance between impingement water evaporation and heat transfer
B.R. Becker, A. Misra and B.A. Fricke	59	Development of correlations for soil thermal conductivity
N.M. Al-Najem and M.N. Özisik	69	Estimating unknown surface condition in composite media
R.M.F. Vargas, M.T.M.B. de Vilhena and S.V. Möller	79	The determination of the transient wall pipe temperature by fractional calculus theory
W.-M. Yan	89	Transient mixed convection heat transfer in vertical pipe flows
G. Yang and M.A. Ebadian	103	Analysis of heat transfer in arbitrary shaped ducts: Interaction of forced convection and radiation
M. Abu-Zaid	117	A new technique for the measurement of fouling of heat transfer surfaces
A.S. Burns and W.E. Stewart Jr.	127	Convection in heat generating porous media in a concentric annulus with a permeable outer boundary
S.M. Sami and J. Schnotale	137	Comparative study of two phase flow boiling of refrigerant mixtures and pure refrigerants inside enhanced surface tubing
Announcement	149	The Nusselt-Reynolds Prize
Announcement	150	First International Conference on Aerospace Heat Exchange Technology
Announcement	151	Third World Conference on Experimental Heat Transfer, Fluid Mechanics and Thermodynamics
Announcement	152	International Symposium on Spatio-Temporal Structure and Chaos in Heat and Mass Transfer Processes
Announcement	153	International Seminar on Imaging in Transport Processes

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1992 Volume 19, Number 2 March-April

Contents

S.M. Zubair and M.A.Chaudhry	155	An analytical study of transient heat conduction in an infinite medium with gamma-type, spherical-surface-heat sources
S.H. Lin	165	Transient conduction in heterogeneous media
J.P. Bellot, F. Patisson and D. Ablitzer	175	Analyse de l'interdependance du transfert convectif et du degagement de chaleur lors de l'operation d'agglomeration sur grille a l'aide d'un modele de simulation
L. Galbiati and P. Andreini	185	The transition between stratified and annular regimes for horizontal two-phase flow in small diameter tubes
S.M. Sami and J. Schnotale	191	Prediction of two phase flow condensation of pure and refrigerant mixtures on enhanced surface tubing
S.M. Sami, T.N. Duong and W.K. Snelson	203	Two phase boiling characteristics of R-134a and R-12 in annuli of enhanced surface tubing
S.P. Liaw and R.H. Yeh	215	Boiling heat transfer from an excavated fin
A. Aziz and D.R. Tesarik	229	Two-dimensional heat transfer from a rectangular fin with asymmetrical thermal boundary conditions
M.M. Salah El-Din	239	Fully developed forced convection in a vertical channel with combined buoyancy forces
L.-K. Yang	249	Forced convection in a vertical pipe with combined buoyancy and radiation effects
J.Y. Jang and J.L. Chen	263	Forced convection in a parallel plate channel partially filled with a high porosity medium
I. Pop and T. Watanabe	275	Free convection with uniform suction or injection from a vertical cone for constant wall heat flux
S. Ishiguro and J.P. Hartnett	285	Surface tension of aqueous polymer solutions
Announcement	297	International Symposium on Heat Transfer in Turbomachinery
Announcement	298	The Sixth International Symposium on Transport Phenomena (ISTP-6) in Thermal Engineering

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1992 Volume 19, Number 3 May-June

Contents

N.T. Obot and E.B. Esen	299	Smooth tube friction and heat transfer in laminar and transitional flow
W.K. Gingrich, Y.I. Cho and W. Shyy	311	Effect of aspect ratio on laminar heat transfer behavior of a non-Newtonian fluid in an electronics coldplate
Z.Y. Guo and D.M. Lu	327	Thermal mechanism in gas-liquid two-phase flow systems under heating—An application of thermal drag concept
J.J. Secary. and T.W. Tong	339	The effective thermal conductivity of an adsorbent: Praseodymium cerium oxide
A.Z. Sahin	349	Transient heat conduction in semi-infinite solid with spatially decaying exponential heat generation
I. Dincer	359	Methodology to determine temperature distributions in cylindrical products exposed to hydrocooling
K.C. Toh, K.C. Leong, T. G. Lim and Y.K. Ong	373	Forced convection heat transfer from vertically stacked fin arrays with a shrouding wall
K.-M. Chen, J.-Y. Hsieh and C.-C. Hwang	385	The effect of interface shape on dislocation generation during crystal growth
D. Angirasa and F.T.M. Nieuwstadt	395	The mean temperature profile and the flux-profile relation in turbulent thermal convection
H.K. Ma and F.S. Wu	409	Effect of BFG cofiring on unburned carbon formation in a coal-fired boiler
N.C. Sacheti and A.K. Singh	423	Free convection through a vertical channel in a rotating porous medium
J.Y. Jang and J.S. Leu	435	Buoyancy-induced boundary layer flow of liquids in a porous medium with temperature-dependent viscosity
Announcement	445	The Sixth International Symposium on Transport Phenomena (ISTP-6) in Thermal Engineering

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1992 Volume 19, Number 4 July-August

Contents

J.L. Xia and Z.W. Zhou	447	Natural convection in a partially-open cavity with a divider
R. Budzynski	461	Three-dimensional surface of heat transfer for laminar forced and mixed convection from a circular cylinder
A. Bejan	473	Single correlation for theoretical contact melting results in various geometries
Y. Kawase and M. Moo-Young	485	Flow of and heat transfer in turbulent slurries
P.M. Carrica, F. Moraga and A. Clausse	499	Measurements of void fraction spatial distribution in pool boiling
M.-H. Chun and H.-Y. Nam	507	Analysis of waterhammer induced by steam-water counterflow in a long horizontal pipe
N.S. Goel, J.S. Gerboc and G. Lehmann	519	A simple model for heat conduction in heterogeneous materials and irregular boundaries
G. Zheng and W.M. Worek	531	A holographic interferometric method to study combined heat and mass transfer in film sorption
K. Vafai and C. Desai	541	Characterization of thermal performance of wheel outboard of an aircraft
J. Reardon and A. Razani	549	The optimization of variable cross-section spines with temperature dependent thermal parameters
S.-C. Chen and Y.-C. Chung	559	Simulations of cyclic transient mold cavity surface temperatures in injection mold-cooling process
K. Laor and H. Kalman	569	The effect of tip convection on the performance and optimum dimensions of cooling fins

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1992 Volume 19, Number 5 September-October

Contents

R.N. Hills, D.E. Loper and P.H. Roberts	585	On continuum models for momentum, heat and species transport in solid-liquid phase change systems
C. Ferrero, M. Martino and N. Zaritzky	595	Fixative diffusion in a frozen starch paste system
R.S. LaFleur	607	Selection game strategies for iceformation method preprocessing solutions of flow and thermal parameters
Y.-B. Lee, W.-P. Baek and S.H. Chang	619	Theoretical investigation of vapor blanket velocity based on mass, energy, and momentum balance to predict CHF at low quality flow
L. Ananthanarayanan and A.K. Lahiri	629	An ADI enthalpy method for two dimensional solidification
K. Schulgasser	639	A reciprocal theorem in two-dimensional heat transfer and its implications
M.A. Chaudhry and S.M. Zubair	651	Temperature solutions due to steady and non-steady periodic-type, point-heat sources in an infinite medium
A. Haji-Sheikh and L. Yan	661	Multidimensional inverse heat conduction using alternative Green's function solution
S.X. Gao and J.P. Hartnett	673	Non-Newtonian fluid laminar flow and forced convection heat transfer in rectangular ducts
K.N. Mehta and S. Sood	687	Transient free convective flow about a non-isothermal vertical flat plate immersed in a saturated inhomogeneous porous medium
K. Vajravelu and J. Nayfeh	701	Hydromagnetic convection at a cone and a wedge
P.G. Holborn, S.R. Bishop, A.N. Beard and D.D. Drysdale	711	The effect of variation of ventilation and other control parameters in a compartment fire model
A. Dewan, J.H. Arakeri and J. Srinivasan	721	A note on high Schmidt number laminar buoyant jets discharged horizontally
I. Dincer	733	Determination of temperature distributions and heat transfer rates during precooling of spherical foodstuffs
K. Yerkes and A. Faghri	749	Flow visualization of mixed convection in large baffled rectangular chambers with and without internal heat sources
Announcement	765	First ISHMT-ASME Heat and Mass Transfer Conference

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1992 Volume 19, Number 6 November-December

Contents

N. Zhang, W.-J. Yang and G.W. Yang	767	Two-tier model for nucleate pool boiling on microconfigured composite surfaces
G.W. Yang, W.J. Yang and N. Zhang	781	Mechanisms of nucleate pool boiling on composite surfaces
L. Galbiati and P. Andreini	791	Flow pattern transition for vertical downward two-phase flow in capillary tubes. Inlet mixing effects
P. Sadasivan, P.R. Chappidi, C. Unal and R.A. Nelson	801	Possible mechanisms of macrolayer formation
T.-N. Nguyen	817	Heat transfer characteristics of SA-178 boiler tubes covered with erosion resistance coatings
K.F. Armstrong, H.M. Soliman, G.E. Sims and D.J. Richards	827	The onset of liquid entrainment for a system with two parallel slots
K.C. Chang	841	A diffusion-type problem with variable diffusion coefficient in multi-layer slab
J.P.H. Sanders and A.P.G.G. Lamers	851	Scalar transport in a turbulent jet
W.E. Stewart, Jr. and A.S. Burns	859	Convection in a concentric annulus with heat generating porous media and a permeable inner boundary
M.A. Al-Nimr and M.A.I. El-Shaarawi	869	Analytical solutions for transient conjugated heat transfer in parallel plate and circular ducts
B.V.S.S.S. Prasad, A.A. Tawfek and V.R.M. Rao	879	Heat transfer from aerofoils in cross-flow
Announcement	891	ICHMT Forthcoming Meetings in 1993 and 1994
	893	LIST OF CONTENTS FOR VOLUME 19, 1992
	899	AUTHOR INDEX TO VOLUME 19, 1992
